

CORPUS CHRISTI COLLEGE
ST. MARK'S COLLEGE

COUNSELLOR UPDATE

St. Mark's Community at the University of British Columbia

New Website Section for Counsellors

We created this section so you can easily locate everything you need to know as a counsellor. Find quick links, admissions updates, and direct contact information for key staff members.

New Courses

90+ courses in Arts, Business and Science

All our courses are transferable to UBC and many other post-secondary institutions in BC. New courses include:

- Computer Science
- Mandarin
- Sociology
- Criminology

Simplified Admissions Process

Applicants are no longer required to be interviewed by an Admissions Officer before being accepted. We now provide a one-on-one meeting with an Academic Advisor to give applicants the opportunity to ask questions and develop an academic plan.

Major Scholarship – Circle of Fellows

This innovative program offers a full 2-year scholarship, including tuition and co-curricular support. Guaranteed opportunities for service, leadership, and internships plus participation in a dynamic network of scholars and respected industry leaders.

Sciences – Year 1

Corpus students can now complete their first year of science requirements in our small supportive classes and then transfer directly into second year at a research university. Courses include Astronomy, Biology, Geology, Geography, Math, Physics, and more.

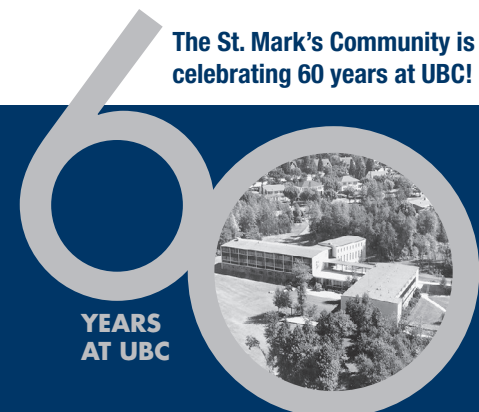

We're Growing – Expanded Campus

Our new West Campus building, located on the UBC campus, features additional classrooms for our growing student body.

Corpus Christi–St. Mark's: Why Two Names?

We are two institutions working together to offer the best university experience. Corpus Christi offers the first two years of university, and St. Mark's offers a special Bachelor's program for future teachers. Together, we form the St. Mark's Community at the University of British Columbia.

The St. Mark's Community is celebrating 60 years at UBC!
